Even after high-temperature disinfection and repeated use, it will not shed fibers or shrink, making it a necessity for improving hotels and homes.

Pure Comfort White Design

White towels are the most classic and basic color in the towel category, and also the most widely used style. It has become the first choice in the home, hotel, spa center, and major supermarket markets with its unique charm. White directly conveys the signal of "cleanliness, hygiene, and purity", making users feel more secure and comfortable when using it. The biggest practical advantage of white towels is that they can be used without distraction for high-temperature bleaching and sterilization with laundry detergent and chlorine agents, which can remove dirt and sterilize without worrying about color fading caused by poor dye quality.White is a versatile color that perfectly complements any bathroom decor or hotel environment, creating a fresh and bright visual effect.
